Final-year Computer Science and Engineering student at ISEC (specializing in Networks and Systems Administration), currently completing the last three courses of my degree. Bringing hands-on experience in DevOps, platform automation (CI/CD, Kubernetes), and software development gained in a corporate setting. Currently seeking my first professional role in the field, highly motivated to join dynamic teams and contribute to building scalable and resilient systems.

EDUCATION

Bachelor's Degree in Computer Science and Engineering | **ISEC – Instituto Superior de Engenharia de Coimbra**
2022 – 2026

- Specialization track in Networks and Systems Administration
- Completed curricular internship as final-year project component

EXPERIENCE

Curricular Intern – DevOps & Platform Automation | **OneSource** | **Coimbra, PT**
February 2026 – July 2026

- Developed and maintained CI/CD pipelines for MIRO, a cloud-native, multi-domain Kubernetes orchestration platform
- Contributed to platform automation initiatives, including Grafana chart migration, a dynamic add-on customization feature, and DevSecOps vulnerability scanning
- Refactored a monolithic bootstrap script into modular components and integrated Playwright End-to-End tests into the pipeline

PROJECTS

Virtual Garden Simulator

- Developed a terminal-based ecosystem simulator with dynamic entity interactions
Technologies: C++, CMake, Git

Portfolio Website

- Designed and maintained a personal portfolio site built with a modern framework
Technologies: Next.js, TypeScript, Tailwind CSS, HTML, CSS

LusoFly – Full-Stack Web Application

- Developed a full-stack web application integrating a Python/Django backend with a Next.js and React frontend.
Technologies: Python, Django, Next.js, React

SKILLS

- Programming: C, C++, C#, Python, JavaScript, HTML/CSS, TypeScript
- Frameworks: Django, React, Next.js, Tailwind CSS
- DevOps & Cloud: Docker, Kubernetes, Git, GitLab, Helm, Trivy
- Networking: Cisco IOS, pfSense, TrueNAS, Proxmox VE
- Tools & Environments: Linux, Windows Server, Wireshark, GNS3, GitHub, CI/CD
- Databases: SQL

LANGUAGES

Portuguese English Spanish
